

MY CAR

Improve points

I would improve the door on it

I would improve how big the axels are

GOOD POINTS

I like the way that the car worked out well

I also like that moves and it suites the Kings Corination

I like that it has 2 axels and 4 wheels

Evaluation

PIC•COLLAGE

veh Moving vehicle

* King ^{Charls} ~~court~~

The Brief Breij

The team of the ~~the~~ ~~of~~ the designer was the kings corination. It had to be like ~~stunk photo~~ ~~to~~ Westminster. ~~to~~ The car needed to move. It also had to have 4 wheels and 2 axels.

Steps to design and build

1. + Design a car using CAD
2. We 3D print a 2D net to assemble it into a 3D shape
3. We had to attach axel holders to the vehicle.
4. We had to Measure and sawed axels
5. Thread the axels through the axel holders
6. Attached ~~to~~ wheel to the axels.
